

Skills Booster Curriculum Coverage

Skills Boosters Explained

Our Skills Booster texts cover National Curriculum subject areas for years 1 to 6.

All Skills Booster texts are aligned to the National Curriculum and offer age appropriate texts that are Lexile levelled to be suitable for each year group. Each Skills Booster online quiz includes a downloadable version of the text, a reciprocal reading guide (with answers) and a comprehension (with answers).

Alongside our curriculum content we also offer some standalone content on popular topics for primary age pupils.

As part of your subscription to Reading On Your Head, you may be able to ask us to create custom Skills Booster content. To enquire about this, please speak to the member of our team who is the point of contact for your school or MAT.

Year Six
